

STAINLESS STEEL SHOT AND GRIT

ENVIRONMENTAL ABRASIVES WAREHOUSE

CHRONITAL

Chronital is a high quality, non-rusting cast stainless steel shot used for:

- cleaning, deburring
- descaling and surface finishing

Chronital is a very attractive alternative to:

- stainless steel cut wire shot
- aluminum shot,
- zinc cut wire
- glass beads.

Blasting with Chronital:

- Prevents rust discoloration of cast aluminum parts
- Eliminates the need for further treatment of the parts

GRITTAL

Grittall is a high quality, non-rusting cast stainless steel grit

- Specially hardened and crushed
- Very aggressive, excellent performance
- Hardness of 62HRC (750 HV)
- Non-rusting
- High durability
- Provides temporary rust protection on blasted ferrous surfaces
- Maintains a stable blasting process when compared to using mineral grit abrasive
- virtually dust free
- Used in centrifugal wheel machines

CUT WIRE

Carbon, stainless steel, zinc and aluminum shot peening manufactured to most international military, automotive and aerospace standards. Media shapes: cut (CW), double conditioned (DCCW), and spherical (SCCW) all available in a range of sizes and hardness.

(CW)

(DCCW)

(SCCW)

PRODUCT APPLICATIONS CHART	Chronital	Grittall	Cut Wire
Deburring/Surface Finishing of Non-Ferrous Castings	x		x
Ceramic Removal of Investment Castings		x	
Heat Treatment Descaling of Castings		x	
Surface Prep for Coatings		x	
Stainless Steel & Aluminum Surface Finishing	x	x	
Automotive Parts Reconditioning	x	x	
Surface Texturing & Engraving of Granite Stone	x	x	
Cleaning/Debluing of Weldments	x	x	
Cleaning Molds/Dies	x		
Shot Peening	x		x
