

Aluminum and Zinc Shot

ENVIRONMENTAL ABRASIVES WAREHOUSE

Aluminum Shot

RSA

- Gentle enough to protect delicate gasket surfaces and critical date coding information
- Aggressive enough to de-flash and de-burr light metal castings and clean rust

RSA-319

- Most popular
- Ideal blend of hardness and durability
- Average cycle life of 8000 cycles

RSA-(2N)

- Made from very pure aluminum
- Softer than the 319 alloy
- Not as aggressive
- Used on very delicate surfaces
- Average cycle life is 14,000 cycles

Zinc Shot

- Deburring
- Deflashing
- Cleaning of light metal castings
- Bulk density similar to steel
- Delivers the energy to remove burrs and flash

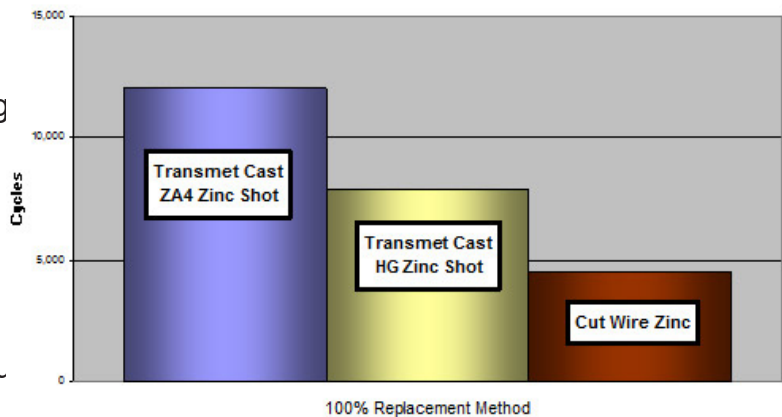

HG

- Made from High Grade Zinc
- Similar in hardness to zinc cut wire
- HG cast zinc shot lasts up to 50% long than zinc cut wire

ZA4

- harder than the HG
- bit more aggressive
- greatly increased durability
- will last up to 300% longer than zinc cut wire

Durability Comparison
